```
int main() {
 . . .
 double x,y;
 x = 5;
                  void switch_1(double a,
switch_1(x,y);
                        double b) {
                    double c=b;
                    a=c;
```
